Marquise Spas

Company Bio

A little bit about the business and ourselves.

Marquise Spas is a family run husband and wife team based at Park Farm Shop and Garden Centre, Walmersley, Bury. We have been in the industry for over 5 years now and Marquise Spas Limited are authorised dealers of Aspen and Marquis spas, Almost heaven saunas, Tylo Helo saunas and steam rooms and Covanas.

We have exhibited at many local shows including Royal Lancashire, Great Harwood, Great Eccleston, Cheshire Show, Lancashire Game and Country Fest, Westmoreland, various Steam Rally's, Southport Flower Show, Bury Show (where we won best trade stand) and many more. These shows have helped establish Marquise Spas in our local area.

At Marquise Spas specialise in the sale, installation, commissioning, service and aftercare of hot tubs, swim spas, saunas, gazebos, landscaping, and much more. We provide a vast range of leisure products so you can relax unwind and make the most of your garden. We cater for all your outdoor living needs!

Here at Marquise Spas we want to help you find the hot tub/swim spa/sauna that suits you and your family's needs. We want to help you from start to finish. We listen to all your requirements, so you get what you want from your hot tub/sauna and from us whether it is the size, number of seats, hydrotherapy benefits, relaxation, socialising, etc. We want you to get exactly what you want from your hot tub. Whether it be more family time, sleep better, reduce aching joints/muscles, pain reduction, reducing every day stress, quality time with the family (no iPads, iPhones, computers just quality time together).

As a family run, husband and wife team, we are here to help you every step of the way. We are reliable and have all 5 star reviews. We have trained technicians to install and maintain your spa. All our hot tubs are designed and made in America, making all types of spas and swim spas. All our spas are designed and made in Oregon and St Louis in USA. They have over 60 years combined experience in making all types of spas and swim spas. This is why they are trusted by us to make quality built spas, offering the ultimate combination of inspired designs, luxury and hydrotherapy features.

Both domestic and commercial needs are catered for. Marquise Spas supply only the best all American Aspen and Marquis hot tubs and swim spas with up to a 7 year warranty. Stewart is from a trade background with over 30 years experience, which enables us to be able to carry out any size of project. Stewart's past developments have covered a wide variety of building works from house building, patios, driveways, landscaping, decking, artificial grass and more. Katherine has been in the leisure industry for over 25 years, with rolls including leisure management, coaching various sports, director of a children's play centre, degree in sports rehabilitation and physio for local semi pro football teams. Being from a rehabilitation background gives us the knowledge of how important and effective hydrotherapy can be and how it can help with many injuries and medical conditions.

Vector 21 Range

Why is it different?

JETPODS AND SPECIALIZED MASSAGE SEATS

Vector21 Jetpods are the epitome of versatility. Conal Jetpods, Directional Jetpods, and Orbital Jetpods are preconfigured in specialized massage seats to achieve Deep-Tissue Massage, Relaxation Massage, Shiatsu Massage or Swedish Massage. Changing configurations is a snap, and additional Jetpods may be purchased for even more customization. On selected models, a colossal Whitewater-4™ jet is available.

V-O-L-T™ SYSTEM DELIVERS OPTIMAL FLOW

The Vector-Optimized Laminar Therapy™ (V-O-L-T™) system is a powerful performance feature of the Vector21 Series. Optimizing water delivery from pump to jets achieves laminar flow, with no crosscurrents, eddies or swirls of water perpendicular to the direction of flow. The end result is a feeling of deeper muscle-tissue penetration without causing skin discomfort.

V3 THROTTLE CONTROL EMPOWERS YOU

Simple to understand and operate, Variable Velocity Valves (V3)™ are the Vector21's primary flow-control system. Throttle from 0 to 100 percent of a pump's water flow to specific seats. Between three and five V3 Throttle Control valves are available depending on which hot tub you select, each located near the seat or pair of seats it activates

MARQUIS WITH MICROSILK® REVEALS YOUR INNER & OUTER BEAUTY

Using a Marquis hot tub with MicroSilk is like giving your entire body an oxygen facial, moisturizing and hydrating at the same time making your skin feel luxuriously silky as well as reducing fine lines and wrinkles. Micro-bubbles literally envelope your body in a soothing, effervescent cloud of oxygen. Yes, oxygen is good for your skin. Increased oxygen levels result in better circulation and cellular respiration, which in turn leaves the skin glowing and radiant due to rapid skin cell regeneration.

Signature Range

Why is it different?

HK™ JETS AND SIGNATURE HYDROMASSAGE

Hydro Kinetic (HK) Jets are the epitome of performance. The jaw-dropping flow rate of HK™40 jets melts away your aches and pains, with adjustable and interchangeable HK™16, HK™12 and HK™8 jets to fine-tune your hydrotherapy experience. A combination of directional jets, multiport jets and spinning jets deliver soothing hydromassage in each massage seat, with giant Geyser jets available on selected models.

H.O.T. ZONES™ DELIVER TARGETED POWER

High Output Therapy™ (H.O.T.) Zones deliver maximum water flow to targeted zones of the body. By means of the 3-2-1 Zone Control™ valve, high-volume water flow is hannelled to specialized jet clusters to target Shoulder Zones, Lumbar Zones, Foot Zones and passive-therapy Pillar Zones. As a result, H.O.T. Zones massage deep tissue and muscle mass more effectively without causing skin irritation.

3-2-1 ZONE CONTROL™ VALVES MAKE IT EASY

Signature 3-2-1 Zone Control™ valves are easy to operate and powerful in effect. Channel water flow from each pump to one or more massage seats, or send the entire flow to targeted-therapy H.O.T. Zones. Multiple-pump systems gain the flexibility of multiple 3-2-1 Zone Control valves, allowing each seating section to channel water flow independently.

MARQUIS WITH MICROSILK® REVEALS YOUR INNER & OUTER BEAUTY

Using a Marquis hot tub with MicroSilk is like giving your entire body an oxygen facial, moisturizing and hydrating at the same time making your skin feel luxuriously silky as well as reducing fine lines and wrinkles. Micro-bubbles literally envelope your body in a soothing, effervescent cloud of oxygen. Yes, oxygen is good for your skin. Conava Cover

THE COVANA HOT TUB COVER is Your Key to Happiness!

What if you could access your hot tub with the simple turn of a key without ever again having to struggle with opening a cover or removing snow, ice or other debris? With Covana, you can equip your spa with one of the highest insulation covers on the market and then transform it into one of the most easily accessible... all within a mere 20 seconds and little effort!

Covana systems are more than just hot tub covers. They are also completely automated gazebos which offer you maximum comfort, safety and intimacy. Made in Canada using the latest, state-of-the-art materials, our products are designed to endure the most rigorous climates while saving you money on unnecessary water, heating bills and maintenance products.

Saunas

Almost Heaven saunas come in various sizes.

These saunas are crafted from the finest materials to create the most authentic sauna experience.

Each sauna is made from only high grade thick sections of Weston Canadian red cedar. Once fitted together in a traditional cooperage fashion, the cedar expands to form a tight seal and constantly circulates the air for a sauna environment that heats quickly and constantly.

Our barrel saunas are designed to be used outdoors.

Pinnacle

Princeton

Weston 7+1

Health benefits

- The release of fat-soluble toxins and toxic body chemicals through perspiration.
- Elevated heart rate leading to increased bloodflow & accelerated calorie burn.
- Enhancement of the immune system due to an increase in body temperature.
- Stress reduction due to increased and improved bloodflow.
- Endorphin release due to increased heart rate.
- Improved circulation due to expanded capillaries.
- Weight loss due to toxin release from fat cells and increased caloric burn.
- Cardiovascular conditioning and the lowering of blood pressure.
- Reduction in cellulite due to significant sweating.
- Reduction in arthritic and muscle pain.
- Enhanced skin tone due to the opening of skin pores.

Monolith Grills

Ceramic Grilling

The heavy duty, inch-thick ceramics with a gasket seal produce a high level of efficiency that requires very little air and fuel while providing a host of advantages:

Unique Features:

Saffire has set the standard for quality with unique designs and extra high quality components from the introduction of our first kamado grill. Set the standard, and others will follow. When you see our logo you know that the featured item is either Unique to Saffire, or that Saffire was the first to introduce it's unique qualities to kamado grills.

Patented Smokin' Chip Feeder:

Never has it been so convenient to add the perfect amount of smoke to your barbecue. The key is Saffire's patented Smokin' Chip Feeder.

Eliminates these problems:

Having to put chips in first, and have them burning up, before the food goes on.

Having to open the grill while cooking and thus interrupting the cooking cycle, fanning the flame and losing heat.

Having to remove the cooking grid with food on it.

Trying to get chips to the fire by dropping them through the grids causing:

- Chips getting in the food.

- Chips getting stuck in the hot grid.

- Hands being exposed to fire.

Extra Heavy Duty Hardware and Ceramics:

Saffire uses the biggest, thickest metal on our hinge, bands, cart and hardware throughout our grills. This provides strength, stability and longevity. Platinum Series uses the finest 304 stainless steel while the Bronze series uses powder coated galvanized steel. Saffire also offers thicker ceramic components for greater durability and better kamado cooking.

304 Stainless Steel Cart:

Heavy Duty is an understatement for this beefy, rock-solid cart design. The heavy gauge tubular design is extremely sturdy without being cumbersome to handle. Fast and easy assembly. Includes Bamboo Side Shelves with Stainless Steel Tool hooks & Towel bar.

Monolith Grills

Ceramic Grilling

Enlarged Ash Capacity:

With an extra wide base on the bottom of the firebox the interior components are more stable. The larger area also leaves much more room for ash requiring less cleaning.

Stainless Steel Cooking Grid with Access Door to fire:

Use any type of spatula, brush, or scraper without having to worry about chipping or scratching porcelain, even if dropped on a hard surface. The bars on the grid were placed closer together to help prevent food from falling through. The Access Door provides access to the fire without removing the cooking grid. Use for adding or adjusting charcoal and wood chunks.

Easier Built-in Installation:

The Saffire Grill may be built in so the cooking area is closer to the countertop height. Our hinge does not pivot downward requiring special cut outs or the grill to be elevated.

Cooking Grid Elevator:

304 Stainless Steel – Elevates the cooking grid and pizza stone up to the top edge of the grill. Provides easier access to food. Allows use of a pizza peel when cooking pizza. Another original invention by Saffire!

Efficiency Plate:

The presence of this stainless steel plate under the grate tremendously reduces heat loss from the bottom of the grill. Also makes it safe on combustibles with the Build Kit.

Cast Stainless Steel Top Damper Control:

Available on the Silver and Platinum Saffire grills, the cast stainless top damper control is another feature par-excellence in the kamado industry. Made of solid 304 Cast Stainless Steel! Allows precision adjustment of airflow and grill temperature. First top damper control made of Cast Stainless Steel, and brought to you by Saffire!
